Setting foot on the Notre Dame campus, one thing becomes clear: our devotion to charting new paths is inherent in everything we do—from global business initiatives to on-campus recycling programs. A driving force behind some of the most exciting changes over the past two centuries, we have received Congressional Gold Medals and produced Nobel Laureates while being recognized as thought leaders in aerospace studies, global health, and philosophy. But beyond this, we equip our students with the powers of discernment, sense of self, and a strong educational base that allows them to become impactful members of society.
Academics are central to life on Notre Dame’s campus—and applicable to every experience beyond it. Here, you will learn to explore the world from every angle, across every spectrum. You’ll engage with more topics, write more, and dispute more than you have in your entire life. You will be challenged to discover the right questions, not just the right answers.

At the same time, you’ll benefit from state-of-the-art resources, learn from some of the most influential minds, and explore ideas on-campus, as well as off. It is this process of intellectual engagement and hands-on experience that will help you find your true calling in life, and then apply it to the world.
DISCOVERING YOUR FAITH IS AN INTENSELY PERSONAL EXPERIENCE—BUT AT NOTRE DAME, YOU’LL NEVER BE ALONE IN IT.

WITH A CRITICAL MIND COMES

**Spirit**

Notre Dame was founded by the Congregation of Holy Cross over 170 years ago, and today, this remains an important part of our tradition. But in addition to providing spiritual discovery, our Catholicism is also an intellectual pursuit. At Notre Dame you’ll be challenged to search for unconventional solutions to age-old questions, inspired by thought-provoking discussions, and encouraged to consider your wider role in the world. You’ll become a part of an open-minded environment that welcomes all religions, beliefs, and ideas.

Create our own luck of the Irish

Notre Dame consistently ranks in the top 20 according to *US News & World Report*, *Princeton Review*, and *Forbes*
You have your own approach, opinions, perspective, and voice—and we hope this never changes. Notre Dame is a community of individuals who pursue various passions while supporting and helping one another.

In fact, even after you leave our campus, the relationships and connections you’ve made at Notre Dame will remain relevant. Whether you draw on knowledge from your freshman year theology course, stay connected to your senior thesis advisor, or engage in a conversation with a stranger wearing a Notre Dame t-shirt, you’ll be a Domer for the rest of your life.
As a student here, you’ll have access to activities, people, and events that allow you to broaden your horizons and discover unexpected passions.

Watch a performance of *Il Trovatore* by the Metropolitan Opera Company at the DeBartolo Performing Arts Center. Cheer on the Fighting Irish alongside 80,000 screaming fans. Check out the graphic design projects at the Snite Museum of Art before attending Mass at the Basilica of the Sacred Heart.

Head off-campus for pizza at Rocco’s (a Notre Dame hot spot for over 50 years), or take an impromptu trip to Chicago. At Notre Dame, there’s more to do than time to do it.
We believe that the value of a Notre Dame education far exceeds its price. It’s more than just giving quality instruction—it’s giving students an open mind to put their knowledge into action effectively. Programs like the First Year of Studies encourage students to examine issues and ideas in a variety of approaches, better preparing them to thrive in an ever-evolving world. With the help of one of the widest and most influential alumni networks in the world, 98% of our graduates
find career opportunities within six months of graduation. At Notre Dame, we believe four years of education lasts a lifetime.
